

DEPARTMENT OF COMMUNITY HEALTH NURSING

BEST PRACTICES -EXPEDITIONARY LEARNING

2020-2021

Practice 1

Title: Expeditionary learning involves “Learning by Doing”.

Objectives:

- Encourage the students to participate in the field work actively.
- The students are asked to do work in problem solving methods.
- Motivated the students to use advanced learning like Google Docs, sheets and Drive.

The Context:

Expeditionary learning is based on the ideas of the educator and is a form project-based learning in which students go on expeditions and engage in in-depth study topics that impact their communities.

The practice:

The faculty and the student's use the expeditionary learning by the teacher teaches the students and allows the students to observe the class and while moving on to the practical session the students are asked to apply the learning by doing.

Evidence of success:

By this the students are able to use their critical thinking and problem based learning. They are very confident in what they are doing and will remember the community problems and to solve the problems by using the available resources.

Problem encountered:

In the community setting sometimes, it is difficult to find available resources that are needed to search and to analyses their problems.

Practice 2

Title: Publishing article and research thesis in the indexed journals among the faculties in the department.

Objectives:

- Encouraging the staffs to do more number of articles.
- Encourage inter disciplinary/ multi-disciplinary collaborative research efforts to introduce best practices in health care based on evidences.

The context:

Publishing research article is important as professionals so this help in obtaining knowledge and increasing the number of projects in hand but also it opens the way for best evidence-based practice in the health care profession.

The practice:

The first part of the practice includes encouraging the teachers to write the scientific papers. The papers are presented in the workshop, conferences and in national and international journals.

Evidence of success:

The faculties are benefited because of their professional growth.

Problem encountered:

- Budget is the main problem.
- Members in the department are very less.
